

Toucan® Eco eSpray.

Protects your home, protects
your planet.

**Robert
Scott**®
Serious cleaning know-how

Toucan® Eco eSpray makes a powerful, safe and eco-friendly disinfectant cleaner from water, salt and electricity.

Toucan Eco is a revolutionary way to make your own multipurpose disinfectant cleaner that kills more than 99.99% of germs.

And it's now available on demand in your home with a little help from Toucan Eco eSpray. Compact and easy to use it puts the power of electrochemically activated water at your fingertips.

Once activated, the solution contains 99.9% water, and a low concentration of hypochlorous acid and sodium hypochlorite at a gentle pH. This means that while its powerful stuff, it's also eco-friendly and safe.

It can go to work all around the home. It replaces general disinfectant, all-purpose cleaners, kitchen and bathroom cleaners, glass and metal cleaners, and deodorisers. After seven days it starts to revert to salty water. You simply make more.

No chemicals and no plastic waste. Just a proven, effective way to wipe out germs without harming the environment.

Key features & benefits

Kills
99.99%
of germs

Environmentally
friendly

Cost
effective

Safe &
hypoallergenic

- Kills more than 99.99% of germs.
- Fast acting.
- Antiviral and antibacterial.
- Safe and hypoallergenic.
- Reduces use of chemicals and plastic bottle waste.
- Saves money.
- Fragrance free.

What's in the kit?

The Toucan Eco eSpray comes with the spray activation unit, measuring spoon and funnel, USB cable and user instructions.

How to make

Toucan Eco eSpray makes 350ml of disinfectant cleaner. Simply add 3g of table salt, fill with tap water, then activate, which takes five minutes.

What it's used for

Toucan Eco can be used for a range of applications.

- ✓ Clean and disinfect any surface, including kitchens, bathrooms, fabrics and glass.
- ✓ You can use it as a deodoriser as it kills the germs that creates the odour.
- ✓ Use as a hand sanitiser as you would any alcohol gel.
- ✓ Sterilise children's toys and clothes safely.
- ✓ Spray fresh fruit and vegetables to remove dirt and pesticides, but remember to rinse in fresh water before eating.
- ✓ Remove trainer odour by soaking overnight.
- ✓ Spray pets' mucky paws and coats.
- ✓ Water cut flowers to make them last longer.

Proven solution

Contains 99.9% water, hypochlorous acid and sodium hypochlorite at a gentle pH that is certified to EN 14476, EN 16777, EN 1276 and EN 13697, and registered as an EU biocide.
